

## A Puzzle

The problem:

- Alter the program below so that it generates twenty consecutive hyphens as output.
- That means the only output it produces is this: -----

The restrictions:

- You may only **add a single character to OR replace a single character in** the code.
- Once you find a solution, reset the code to its original state and try to find another solution.

The reward:

- Find one solution and receive 5 bonus points on the midterm exam.
- Find two solutions and receive 10 bonus points on the midterm exam.

The code:

```
public class Bonus
{
    public static void main(String[] args)
    {
        int i, n = 20;

        for (i=0; i<n; i++)
            System.out.print("-");
        System.out.println();
    }
}
```
